TOWN WARRANT

To the inhabitants of the Town of Hebron, in Grafton County, in the State of New Hampshire, you who are qualified to vote in Town affairs:

You are hereby notified to meet at the Community Hall in Hebron on Tuesday, the twelfth day of March next, at five o'clock in the afternoon to act upon the following subjects:

ARTICLE:

1. To choose all necessary Town Officers for the ensuing year. The polls will be open from 5:00 p.m. to 9:00 p.m., and the business meeting will commence at 7:00 p.m.

The Village Cooperative Kindergarten will prepare and serve a New England Boiled Dinner at the Hall from 5:00 to 6:30 p.m. Five dollars and fifty cents for adults and three dollars for children. Please call Liz Braley at 744-8481 for reservations.

2. To see if the Town will authorize the Selectmen to borrow money in anticipation of taxes.
3. To see if the Town will vote to authorize a two percent cash discount on property taxes paid within thirty days of the date of the tax bill.
4. To see if the Town will vote to authorize the Selectmen to accept or reject any gifts, legacies, and or devises made to the Town during the year.
5. To see if the Town will vote to accept a Five Hundred dollar (\$500.00) gift to the Cemetery Trust Fund from Gwen Sanborn.
6. To see if the Town will vote to raise and appropriate the Five Hundred dollars (\$500.00) for the anticipated fee for a Wetlands Board Permit and other improvements to the Town Beach.
7. To see if the Town will vote to raise and appropriate Six Thousand dollars (\$6000.00) to replace the wooden picket fence at Hebron Village Cemetery.
8. To see if the Town will vote to authorize the Selectmen to enter into an intergovernmental agreement with the Town of Groton under RSA 53-A for the purpose of creating and administrating a joint Police Department for both Towns.

9. To see if the Town will vote to authorize a section of the Town of Bristol NH, now known as Bear Mountain Cove, consisting of three acres more or less and located on the common border with the Town of Hebron, to become annexed to the Town of Hebron subject to payment of all taxes due the Town following the date of annexation as may be approved by the New Hampshire Legislature. (By written ballot and article presented by petition)
10. To see if the Town will vote to establish a Bicentennial Committee, to be appointed by the moderator, to plan a suitable celebration in 1992 for the Town's 200th birthday. Further, to see what sums of money the Town will vote to raise and appropriate for this purpose to supplement the funds presently available.
11. To see if the Town will vote to raise and appropriate such sums of money as may be necessary to defray Town charges for the ensuing year.
12. To transact any other business that may legally come before the meeting.

Given under our hands and seals this 12th day of February 1991.

Bruce A. Barnard
Richard T. Cown
Peter C. Fortescue
Selectmen of Hebron, N.H.

SELECTMEN'S REPORT FOR 1990

POST OFFICE (03241) One of our first priorities after the March 1990 Annual Meeting was to contact the U.S. Postal Service regarding the Village Post Office (03241). We made contact with U.S. Postal authorities and had a meeting plus several phone calls with them. They apparently are unwilling to bring back the Post Office until one or more of the following occurs: (1) There is an appropriate location/structure for it, (2) The East Hebron Post Office recants on its present lease or when its lease expires in 1994. In summary, the U.S. Postal Service knows and is aware of the Town's willingness to work with them.

ROADS At the 1990 meeting, we were asked to provide a maintenance schedule for our Town roads. Maintenance means to have "upkeep" or keep at a status quo. The Selectmen are concerned with the capital outlay on our roads as well.

In view of these concerns we hired Jack Strain, C.E. of Devco Consultants, Inc. to review and inspect our roads (bridges are inspected by the N.H. DOT). Strain's road report is printed in this report. We make special note of potential liability areas as suggested by him. These will be our primary areas of concern on all roads this year. Strain's report also looks at potential capital improvement areas which will help the Selectmen and Planning Board in future improvements/changes.

The George Road project was completed this past year. Major culvert changes were made on the George Road, Pike Hill Road, Stonegate Road, and Indian Point.

August of 1990 presented many New Hampshire towns with erosion problems (washouts) and Hebron was no exception. We were fortunate to obtain the funds to fix the washouts plus we applied for and received mitigation funds for some of the major culvert changes previously mentioned. Please note the Comparative Statement for this.

BUDGET In 1990 we ended the fiscal year with a small surplus. For 1991 we have tried to maintain our budget to 1990 or less. Capital reserve additions and proposed for the fire, highway and police departments as in past years. The LCIP program is at a standstill from the state level so nothing is suggested for this year. Long term debt is reduced as our fire station note payment was completed in 1990. We have one year remaining on our fire truck note.

GENERAL We will be having a few money articles for those areas that are in great need of repair or replacement.

Also, we would like to remind everyone that the Selectmen have regular scheduled meetings, the first and third Tuesday of the month. We suggest calling the chairman to make an appointment for a specific time.

ROAD REPORT FOR HEBRON, N.H.

The roads in this report are all class v roads and are divided into two groups. Group "A" contains all roads with no future development potential. This was determined by amount of undeveloped land accessed from said roads or land that is presently being used for a summer camp etc. which has no plans for development. Group "B" contains all roads that access undeveloped tracts of land that if developed would cause major impact to existing levels of service.

Group "A"

Stonegate Beach Road:

See enclosed copy of letter dated May 25, 1990.

Beechwood Road:

Paved surface in fair condition and width varies from 18 ft. at entrance to 16.5 ft. at dead end with 1 ft. shoulders. Presuming present level of service is adequate, then paved surface is adequate. No evidence of drainage system problems except for access. Two culverts with inlets on right and left drainage ditches outlet into a common well tile which in turn drains through a single pipe to the beach. Well tile and pipe to beach are on private property. Town should obtain a maintenance easement for this section of drainage system. Also there is not a proper turnaround at the end of this street. Trespassing onto a private property is required to turnaround. This should be corrected.

Berea Road:

Gravelled surface is in fair condition and width is 10 ft. Presently used as access road to camp facilities. Should be upgraded to town minimum standards for safety vehicle access. There is some privately held land on road that could be developed. Owner may be willing to share in cost of upgrade.

Indian Point Road:

Paved surface is in good condition and width varies from 17 ft. at entrance, 16 ft. at midpoint and 13 ft. at dead end with 1 ft. shoulders. Presuming present level of service is adequate, then paved surface is adequate. No evidence of drainage problems. Dead end has no turnaround, private driveways must be used and would not be suitable for use by large safety vehicles i.e. fire trucks etc. Does not appear to be enough R.O.W. to create turnaround, in fact without relocating private buildings it is not possible.

Country Lane:

Gravelled surface in good shape and width is 20 ft. with adequate circular

turnaround at dead end. Possible recommendation would be to add surface treatment to stabilize road surface and eliminate dust problems.

Hemlock Lane:

Gravelled surface in fair condition and width is 13 ft. No evidence of drainage problems. Dead end has no turnaround, appears that end of road is someone's driveway. There is not sufficient room for turning large safety vehicles around using private or public property. Road should be upgraded to minimum town standards and turnaround added.

Crescent Lane:

Gravelled surface in good condition and width varies from 18 ft. at westerly entrance to 16 ft. at easterly entrance. Presuming present level of service is adequate, then gravelled surface is adequate. No evidence of drainage system problems except outlet pipe of catch basin daylights outside of R.O.W. If town does not have a maintenance easement, a maintenance easement should be obtained. Possible recommendation would be to add surface treatment to stabilize road surface and eliminate dust problems.

Sarah Lane:

First section is gravelled surface in good condition with a width of 20.5 ft. Second section is paved surface in good condition with a width of 19 ft. and no shoulders. Dead ends in a circular paved turnaround. Possible recommendation would be to add surface treatment to unpaved section to stabilize road surface and eliminate dust problems.

James Lane:

Gravelled surface in good condition with a width of 20 ft. Dead ends with circular turnaround. Possible recommendation would be to add surface treatment as above.

Brookside Lane:

Gravelled surface in good condition with a width of 18 ft. Dead ends with circular turnaround. Possible recommendation would be to add surface treatment as above.

Stoney Brook Road:

Gravelled surface in good condition with a width of 18 ft. Some fairly steep sections that should be paved to prevent washboarding effect. Ends in circular turnaround. Possible recommendation would be to add surface treatment as above.

Merrill Road:

Gravelled surface in fair condition and width varies from 13 ft. at entrance

to 12 ft. just past post office entrance. Dead ends with substandard circular turnaround on a 10%+ grade. Section past post office appears to be only used during summer months. Road should be upgraded to minimum standards but not sure this is possible given turnaround location.

Favour Road:

Paved surface width of 15 ft. in very poor condition, badly rutted (6" deep) and many longitudinal cracks. Camp property entrance road only, dead end with no turnaround.

Pasquany Lane/Eastbourne Lane:

Paved surface in fair condition and width varies from 20 ft. at entrance, 18 ft. at midpoint and 14 ft. at the end. Camp property entrance road only, dead end with no turnaround.

Group "B"

Pike Hill Road:

Gravelled surface in fair condition with a width of 14 ft. No evidence of drainage problems. A large amount of undeveloped land is accessed by this road. Road should be upgraded to meet potential development of undeveloped land when any development on said road is indicated.

Hunt Road:

Gravelled surface in fair condition and width varies from beginning (town line) 12 ft. to 10 ft. at dead end with no turnaround. Grades are as high as 15%+ in some sections. This road accesses a very large amount of undeveloped land. Also sections of road in Bridgewater is less than 12 ft. wide all the way to its intersection with Route 3A. This would require upgrade if any development of consequence occurred.

Cooper Road:

Paved surface in fair condition with a width of 18 ft. and 1 ft. shoulders. One lane bridge with insufficient guardrail to protect against going over steep embankment. Culvert near end of road that has little or no cover over it. Dead ends in someone's driveway with no turnaround. Before any further development occurs past one lane bridge, said bridge should be widened to two lanes and safety improvements made to guardrails. Turnaround of adequate design should be added to end of road and cover over culverts improved.

Braley Road:

Paved surface in good condition and width varies from 23 ft. at entrance, 16 ft. with 1 ft. shoulders before one lane bridge, 14 ft. with 1 ft. shoulders just

past midpoint, 10 ft. for last 200 ft. (pavement in poor condition for this section). No evidence of drainage problems. Dead ends in someone's driveway with no defined turnaround. Level of service is adequate but obviously road would require upgrading if any development were to occur. One lane bridge should be upgraded to two lanes and improve guardrails at bridge and double 6 ft. culvert crossing. Turnaround of adequate design should be added to end of road.

Hobart Hill Road:

Paved surface in fair condition with width of 18 ft. and 1 ft. shoulders. Lower section of first hill has pockets of poor subgrade or large boulders working their way to surface through frost action. No evidence of drainage problems. Two culverts on upper sections (above Bruce Barnard's house) have little or no guardrail protection on steep embankments. Level of service for present development is adequate.

George's Road:

First section starting from Route 3A end was recently upgraded past second box culvert. Intersection with Route 3A makes a 60 degree angle, acceptable but certainly suspect. Starting where upgrade ends, paved surface is in fair condition and width varies from 16 ft. with 1 ft. shoulders, to 14 ft. with no shoulders in front of farm house and 17.5 ft. just past farm house. Paved surface ends approximately 1 mile from Route 3A intersection. Last 1500 +/- of paved surface has uphill sections that are in poor condition. Gravelled surface in good to poor condition and width varies from 17 ft. at end of pavement to 15 ft. at 1500 ft. from end of pavement to 13 ft. at 4000 ft. from end of pavement to 12 ft. at 6500 ft. from end of pavement to where pavement begins again at new subdivision road. Paved surface in good condition with a width of 18 ft. and no shoulders. Pavement narrows to 14 ft. at end of old paved road and condition of pavement is poor with fairly steep slopes down to intersection with North Shore Road.

Summation:

Roads overall are in satisfactory condition with reference to level of service. Obviously, if more of these short roads that service summer homes and camps were to become year-round used by full time residents, they would not meet level of service requirements.

Common problems that do exist are maintenance/liability related i.e. access to drainage systems that are outside town R.O.W., town vehicles required to trespass onto private property in order to turnaround, unpaved road surfaces and lack of, or insufficient guardrail on hazardous embankments. Said problems should be prioritized for correction. My suggestion would be to evaluate

the liability items first and budget for corrective measures where necessary. Then prioritize maintenance problems (i.e. required periodic resealing of road surfaces) and budget annually to correct these items with a road improvement fund.

Development impacts should be evaluated on a case by case basis. Location of development on road should also be taken into account, i.e. do not upgrade entire length of road for a 20 lot development if there is a much larger potential for development along same section. Road upgrades and new construction should meet N.H. Department of Transportation "Minimum Geometric & Structural Guides for Local Roads and Streets" (Copy enclosed). Use trip generation figures of 10 trips per day per single family residence. Other trip generation figures for trailers, multifamily units etc. are available from N.H. Department of Transportation.

Total calls from 1/1/90 to 12/31/90	468

The men and women of the Hebron Police Department wish to thank the people of Hebron for their support during the past year. The Police Department will try to continue providing the services you request, to the best of our ability and resources.

Respectfully submitted by,

Sgt. E. Parmenter
Officer D. Phillips
Officer R. Bacon
Officer J. Deery

Harold T. Reilly, Sr., Chief of Police
Fred Wilcox, Deputy Chief

HEBRON LIBRARY REPORT

A fine community spirit was shown this year when a spring clean up Spruce Up Day was held. A group of Hebron citizens worked together to spruce up town buildings. The interior walls of Town Hall were painted, windows cleaned, shelves, furniture, books and floors of the Library cleaned. Window boxes made by several of our town's woodworkers were painted by the Village School children and installed at the front of the buildings. Red geraniums and ivy plantings added to the attractiveness of the Town Center throughout the summer. Refreshments were furnished by town businesses and the Hebron Women's Group.

The Book and Bake Sale was a most successful event in August. Again townspeople and summer visitors and residents contributed much to this annual Library event. That support is gratefully acknowledged.

William Duckworth, Library Trustee for many years resigned as Trustee and Treasurer. Betty Campbell was chosen to fill the remainder of his term.

Gifts to the Library this year included a National Geographic globe. It is a handsome and useful addition to the library.

Large print books on loan to us from New Hampshire State Library continue to be popular for many Hebron patrons. The Village School children visit weekly making the books for young readers one of the most used areas of the library.

At Christmas, a mitten tree was decorated with fifty pairs of mittens and scarves knitted by Hebron women. They were then given to Bristol Community Center for distribution.

Visit Your Library
Hours are 1-5 Wednesday and 2-4 Saturday.

You are always welcome!!

Respectfully,

The Library Trustees

HEBRON FIRE DEPARTMENT

During 1990, the Hebron Fire Department responded to a total of 73 calls. This compares with 70 calls in 1989 and 72 calls in 1988. The breakdown of the 73 calls was as follows: 31 medical emergencies and 42 fire related incidents. Of the 31 medical calls, 24 were illness related, 7 trauma related. The 42 fire related incidents break down as follows: 3 structure fires (one involving a car), 18 mutual aid to other towns (one for a river rescue), 6 chimney fires, 2 power lines down, 1 transformer fire, 1 tractor fire, 2 dialer alarms, 2 alarm malfunctions, 1 malicious false, 3 car accidents (no personal injury involved), 1 search for a lost mine worker, and 2 service calls.

There are three areas that we must keep in balance if we are to have an effective fire department. They are equipment, training and personnel. Like a three legged stool, when one leg is missing the function of the stool becomes impaired.

This year, I am proud to report we have made great strides in personnel and training. We have recruited new firefighters and medical personnel. Three people have completed the N.H. Certified Firefighter Course, and a fourth is currently enrolled in a course. Two other new members are enrolled in the N.H. Certified Driver/Pump Operator Course. We have added two new EMTs and a third person is presently enrolled in a course. This will give us a total of 7 EMTs. Our roster stands at 25 officers, firefighters and EMTs. About six are inactive members.

In the area of equipment, we have also made significant progress. Maintenance, which had been sorely neglected for the last couple of years due to lack of personnel and interest, has now been brought up to date. This is part of the reason that the department exceeded its budget.

The big news in the area of equipment was the purchase and donation of a 2,500 gallon tanker by one of the members of the department. The vehicle is a 1969 Mack tilt cab with a stainless steel tank and P.T.O. pump that can deliver the water in the tank at the rate of 450 gpm. While we put \$2,500 of our own Improvement Fund money into engine work, transmission overhaul and new rear springs, getting the truck in service was the rest of the reason for the budget overage. Since it came on line in the fall, it has been used at 4 major fires. With the addition of this truck, we now carry a total of 5,000 gallons of water.

Finally, on behalf of the department, let me thank the community for the support it has shown. Without such a high level of support our task would be

much more difficult. I also want to personally thank the officers and firefighters for their loyalty. It takes a special person to give as much as some do simply for the love of the fire and emergency medical service.

Respectfully submitted,

John M. Fischer, Fire Chief

PEMI-BAKER HOME HEALTH AGENCY

Home care is available to all ages and the Pemi-Baker Home Health Agency continues to provide a variety of services to residents of its ten member towns as we enter our twenty-fourth year of operation. As a nonprofit organization, nurses, therapists, aides, homemakers and volunteers provide care to those who are essentially homebound and in need of either short or long term medical care at home.

In 1990 our visits increased thirty-three (33) percent, having delivered 9994 visits to our patients in need of home care. Our staff has increased and now consists of seven nurses, a Physical Therapist, a Speech Pathologist, an Occupational Therapist, a Social Worker, one homemaker, five Home Health Aides, a full time bookkeeper, and a full time clerical person. The Director of Clinical Services is Elaine Vieira and the agency Executive Director is Margaret Crowell-Terrasi.

New to the Board of Directors this year is Brian Ray, Ashland alternate representative and Joan Lovett, Holderness alternate representative. Each town is represented by a representative and an alternate on the Board of Directors.

The Pemi-Baker Home Health Agency holds free blood pressure clinics, diabetic screening clinics, and immunization clinics. The agency also holds an annual flu clinic.

Nine patients received Hospice services in 1990. Skilled care to these patients is provided by nurses, aides and therapists. Hospice volunteers, in conjunction with other agency services, provide support and respite to the patient and family.

Two new programs were funded this year and should be well underway in 1991. The first program is a parent support group that will meet twice a month. The second program, in home parent aide, will provide a more comprehensive approach to parent support and the teaching of parenting skills in the home setting. A well child and a prenatal program are in the beginning stages of development for this community.

The Plymouth Area Ad Hoc Committee on Youth at Risk continues to meet quarterly and bring together representation from social, town and state service agencies who are concerned with the youth at risk in our local community.

The Pemi-Baker Home Health Agency belongs to the Home Care Association of New Hampshire, the National Association of Home Care, Granite State Association of Human Services, the National Hospice Association, the Plymouth Area Resource Team and various groups and independent associations throughout the state.

The Pemi-Baker Home Health Agency is a New Hampshire licensed and Medicare Certified Home Health agency.
